Online cognitive behavioural therapy (CBT) from Ieso Digital Health

CBT is an effective type of talking therapy used to treat a range of common mental health problems.

With online CBT you will work 1:1 with your therapist, but the conversation is typed instead of spoken. It's exactly like chatting via a messenger service with friends. You don't need to be brilliant at spelling or worry about using the correct grammar.

Online CBT has been shown to be just as effective as face-to-face, and many people find it less daunting and easier to be open.

Other benefits of online CBT:

- Attend your therapy sessions from home.
- Flexible appointments to suit you.
- Seven days a week, 6am to 11pm.

Visit www.iesohealth.com or call 0800 0745560 for more information.
